“In the lands between the two worlds, thirteen handsome young men, Tarnished, rise to assume their destinies as Elden Lords. Yet even in these lands, all is not as it seems. As the heads of the thirteen, there is strife between each one of them. Yet in order to be transformed into an Elden Lord, a certain law must be followed. If a person follows this law with great sincerity, they will be able to wield the power of the Elden Ring. On the other hand, if the true player follows the law without sincerity, they will have no place in the Elden Ring...” Tarnished, the character creator, demonstrates the new fantasy action RPG’s seamless world building with a variety of locations and dungeons to explore. The story is an epic drama that’s rich with mystery and intrigue, and the characters have realistic personalities. The game is great for both single players and those who enjoy various online elements. The best thing about this fantasy action RPG is the feeling of accomplishment when you completely create your own character. At first, I thought that there wasn’t much to do, but as I continued playing, I was able to create a character that felt like my own. I created my first character, Charem, a knight with a strong sense of loyalty to his friends and family. Although he’s not the strongest character, the circumstances of the story make him the first to fight. I then created another character, Freeman, who’s skilled with melee weapons. The two characters are great to play with. You can also enjoy interacting with the other players and freely move to cities and dungeons. Players will be able to experience a new fantasy action RPG with the Elden Ring. On the other hand, if you’re unfamiliar with fantasy action RPGs, there aren’t many modes other than a story mode and a single player mode. The story mode is divided into 13 episodes, with events that occur after each other. The events consist of a town that progresses as the story progresses and exploration of a large variety of dungeons. The story mode is a rather long mode with many events. When playing in the single player mode, you create a character to fight with. You’re able to equip a weapon and armor, and you’ll be able to develop a character according to your play style. You can also set your own strategy during battle, and bff6bb2d33

Anyone with half a brain can see the value in more accessible gaming (not to mention that if you'd like to live a little before you die) which is why I applaud all the developers that are trying to establish new and interesting universes on mobile platforms.

I had absolutely no idea that Destructoid's
